CHONDRO CBD

Tablets with high palatability

Nowadays, reduced mobility and joint problems belong among common health problems in dogs. Their causes may be various - genetic predisposition, injuries or high age.

When this problem **is diagnosed in time**, we are able to slow down the disease progression and eliminate its symptoms such as pain, limping, difficult standing up, and thus improve the pet's quality of life.

Eminent Chondro CBD tablets were developed just for this purpose. This nutritional supplement contains the substances that contribute to the **maintenance of joint cartilage health**, promote cell regeneration and **reduce inflammatory processes** that accompany the disease. The result is an improved mobility and mood of your dog.

Reduction of inflammation and pain in dogs with mobility problems

support of **mental and physical condition**

regeneration of joints, ligaments and tendons

Seven active ingredients in one tablet:

CANNABIDIOL (CBD): belongs to the group of cannabinoids, natural substances commonly found in cannabis plants. Unlike THC, CBD has no psychotropic effects and is used for medicinal purposes. It helps to relieve pain, reduces stress, improves sleep and concentration - which leads to better mood. CBD also accelerates wound healing and the treatment

of inflammations and infections and has a positive effect on immunity - it harmonizes the whole immune system. It is also a powerful antioxidant.

CHONDROITIN: is a glycosaminoglycan, which is mostly represented in the extracellular matrix of cartilage.

GLUCOSAMINE: is an amino sugar, which is a part of the proteoglycans of joint cartilage.

COLLAGEN: is a protein that represents the basic building block of skin, bones, cartilage, tendons and teeth.

MSM: is an organic sulphur compound with anti-inflammatory effects that strengthens ligaments, tendons and joints and promotes the healing of wounds and scars.

HYALURONIC ACID: helps restore cartilage, supports the growth of new cells and tissues.

VITAMIN C: has anti-inflammatory and antioxidant effects, promotes the absorption of hyaluronic acid.

Packaging:
Plastic dose with **60 tablets**
Plastic dose with **140 tablets**

Ingredients: hydrolyzed collagen, glucosamine hydrochloride, chondroitin sulphate, chicken hydrolyzate, cellulose, methylsulfonylmethan, hyaluronic acid, hemp (dried leaf and flower) as a source of CBD, additives (vitamins), magnesium stearate, saccharose.

Analytical components: crude protein min. 38 %, crude fat max. 3 %, crude ash max. 10 %, crude fibre max. 15 %, mouisture max. 14 %, hydrolyzed collagen 206 g/kg, glucosamine hydrochloride 206 g/kg, chondroitin sulphate 131 g/kg, MSM 87.5 g/kg, hyaluronic acid 14.4 g/kg, CBD 0.625 g/kg.

Additives (in 1 kg): Vitamins: vitamin C (3a312) 15 600 mg.

Content of active ingredients in one tablet (tablet weight 1.6 g): hydrolyzed collagen 330 mg, glucosamine hydrochloride 330 mg, chondroitin sulphate 210 mg, methylsulfonylmethan 140 mg, hyaluronic acid 23 mg, CBD 1 mg, vitamin C 25 mg.

Recommended daily doses

Weight of dog	Initial dose	Maintenance dose
< 10 kg	1.5 tbl.	0.5 - 1 tbl.
10-25 kg	3 tbl.	1 - 1.5 tbl.
25-50 kg	4 tbl.	2 tbl.
> 50 kg	6 tbl.	3 tbl.

Method of administration: give the initial dose for the first two weeks of administration. This will ensure accelerated tissue saturation, rapid onset of effect and pain relief. Then continue with the maintenance dose. Administer the tablets daily for at least 2 monthsthen discontinue for 1-2 month and repeat this cycle from now on. The product may be administered over a long period of time. Follow the recommended dosage.
